

ELECTRONIC WASTE AND HAZARDOUS WASTE

Electronic waste such as cell phones, printers, batteries, light bulbs, monitors, etc. can be disposed of at the Farmers' Market the first Sunday of the month.

Paints, pesticides, batteries, oil, solvents, and tires are considered hazardous waste and can contaminate your drinking water if not disposed of safely. Household quantities of these products can be properly disposed of at the annual LA County sponsored "Hazardous Waste Roundup" held each fall. Contact customer service for the exact date and location.

Hazardous Waste material can also be disposed of properly throughout the year by contacting UCLA's S.A.F.E. collection center at 1-800-968-6942.

It is important to contact them, as the collection day and time may vary depending on the type of material.

BULKY ITEM PICKUPS AND ALLEY MAINTENANCE SERVICE

Bulky item pickups are performed during our alley maintenance service. Alley maintenance is performed bi-monthly (alleys north of Santa Monica Blvd. are serviced every first and third week of the month and alleys south of Santa Monica Blvd. are serviced every second and fourth week of the month).

CONSTRUCTION

No construction debris shall be placed in alleys or containers.

Please call the City for dumpster rental. Dumpsters are available in 3, 10, for short term rental. It is recommended that these bins be used for mix use of construction and other disposables. The maximum allotment is 10 tons. Please call (310) 288-2806 to request your dumpster.

ROLL-OFF AND TEMPORARY BIN ORDERS

10yds, 25yds or 40yds are recommended for construction and other disposables. Maximum allotment is 10 tons. Please call the City for dumpster short term rentals at (310) 288-2806 to request your dumpster.

For more program information, please contact Public Works Services at (310) 285-2467 or www.beverlyhills.org/solidwaste.

THE CITY'S COMMERCIAL/MULTI-FAMILY RECYCLING AND ORGANIC RECYCLING SOLID WASTE PROGRAMS

STATE LAW REQUIREMENTS AB-341/AB1826

- California requires businesses and multi-family housing complexes TO RECYCLE.

Let us help you comply!

AB 1826 - STATE LAW: ORGANIC RECYCLING

As of July 1, 2012, AB341 requires commercial recycling and mandates a statewide 75% diversion goal by 2020. Under California State Law AB341 a business that generates four cubic yards or more of commercial solid waste per week, or is a multi-family residential dwelling of five units or more must have a recycling program.

The City of Beverly Hills Recycles for You

Currently, the City of Beverly Hills is under a franchise agreement with a Waste Hauler under this agreement, the waste hauler takes the solid waste generated in the city to a Material Recovery Facility (MRF). At the MRF all the waste collect is mechanically and manually source separated to sort out recyclables from residential and commercial trash prior to landfill disposal. Our existing commercial recycling program complies with this legislation.

Diversion simply means to divert the waste stream from landfills so items may be recycled or reused.

Visit our website for more information. The 75% diversion rate is a statewide goal, not a local mandate on cities and counties.

The City of Beverly Hills provides many convenient solid waste services. Keep this brochure as a reference throughout the year.

The following services are available for the business:

FOOD WASTE AND RECYCLING

For All Food Service Establishments, Restaurants, Hotels (with Food Services)

The Food Waste and Recycling program began in November 2008 through the City's Waste Hauler. If your business provides food service it may qualify to be in this program, for more information please contact Public Works Services at (310) 285-2467 or www.beverlyhills.org/solidwaste.

MIXED WASTE COLLECTION AND RECYCLING

For Retail and Other Businesses

MIXED WASTE COLLECTION AND RECYCLING

For All Multi-Family Properties

AB 1826

There are new recycling requirement that will be phased in over a period of time to help the state reach 75% percent recycling goal by 2020.

The regulation requires by April 1, 2016 that businesses, public entities, and multi-family complexes of 5 or more units recycle their organics. Organic waste accounts for 40% disposed of in California landfills annually.

The following are resources to help you get started:

- For Medical Waste: The Sharps program is supported by Los Angeles County in partnership with the Departments of Public Health and Public Works Services. Residents can safely and anonymously surrender any unused or expired prescriptions, over the counter

medications, needles, or any other controlled substances. The location nearest City of Beverly Hills is 780 North San Vicente Boulevard, West Hollywood, CA 90069 (310) 855-8850.

- For Multi-family properties service by alleys, the City will begin to stage **Green Waste Only Containers** throughout the alleys, please instruct your landscaper to use these Green Waste containers for all your yard waste clippings. Landscapers are not allowed to place yard waste clippings into the black mixed waste containers. For Multi-family properties not service by alley, please contact Public Works Services to order your yard waste container at (310) 285-2467.
- For Commercial Businesses that generate (4) or more cubic yards of organic waste will be required to place organic waste into a separate container. Please contact the Public Works Services to order your container for organic collection service.

There are certain criteria that may exempt a business or multifamily complex from the requirement and will be considered on a case by case basis; such as:

- Lack sufficient space for an additional organic bin(s)
- Currently results in recycling significant amount of organic waste
- Does not generate at least one-half of a cubic yard of organic waste per week
- Does not generate at least one cubic yard of organic waste per week (*local jurisdiction needs to provide Cal Recycle with an explanation on why a higher exemption is needed, and is subject to expiration if reductions are not meet*).

For more program information, please contact Public Works Services at (310) 285-2467 or www.beverlyhills.org/solidwaste.
